Hi everyone,

Here are some of the primarily logos. Please let me know if there's one that stands out to you or if you would like to see some changes. Next week (except Tuesday) and the following week, I will be on vacation.

I have cc'd Arthur, our project manager, just in case you might have any questions about the logo process during the time I am gone.

Hi Danae,

I think you are on the right track with these. I need more time to look at them. I do know one thing I would like to see: Catholic Parish spread out, fully justified, whatever you call it beneath Holy Trinity. I don't like the trapped white space between the name and the image. Also, please try the words Holy Trinity in both upper case and in small caps on at least one of the versions to give us a sense of what that might do.

Enjoy the holiday.

Hi Father Chris,

Here are the logos with all caps for the wording.

The red square logo words are full width. However, I don't think the other logo's wording should be full width since it has that roof slant.

Hi Danae,

I really like elements of both but I'd also like it to appear more from a distance like a glow in the sky.

One thing I've done with some graphic artists in the past is we meet and tweak together. As in, I describe what I'd like and you modify it in real time. Would you be open to that?

Hi Danae,

Thanks for all your support yesterday!

Could you adjust the graphic so it more resembles the the attached photo?

Observe how:

1. The steeple looks flipped, It angles toward the text rather than away.
(See attached)
2. A creamie rather than grey glow for the steeple lantern.
3. Viewing the cross at an angle, as if it's looking at the name of the parish.

I look forward to talking with you.

Hello Fr. Chris Rouech,

My name is Arthur Richardson and I am the Web Project Manager.
Danae is on vacation for the rest of the week.

If you need any assistance with your site maps, please ask, we will be happy to help. Our Content Specialist, Cody, or I will try to answer any questions you might have. Otherwise, the organization of your site is up to you! The best practice is to have 8 or fewer main menu items.

Another tip is to think of this as if you were moving from your house - what should you keep, what should you throw out, and what should you fix up?

Here are your site maps:

Hi Danae,

Thank you! Progress, but not yet perfection. I still have the concern that the logo seems dwarfed by the name of the church. That said, don't touch it until I consult with staff at today's meeting. I will be out of the office tomorrow and on vacation next week, so there might be a phase of crickets from this end. I'll do my best to keep it moving forward as we need it soon.

Hi Danae,

Our staff meeting is tomorrow, and I'm a bit anxious about how people will respond to the logo draft. I am still partial to the option with the steeple to the right, but I will also show them the one centered.

My biggest concern is how the dimensions will work with on various publications and media. For example, attached you will find what the logo would look like on the parish calendar. How do we integrate the other pertinent information -- address, etc., into the logo?

Meanwhile, three requests:

1. Could you please make the cross larger on Sept. Option 01 and 02.
 2. From that, create versions with Catholic Parish in the serif font like Holy Trinity
 3. Instead of Comstock Park put "Alpine"
- (The official name of our parish is Holy Trinity Parish - Alpine)

Thanks!

Hi Danae,
God willing, our staff meeting is Thursday. We also have a web meeting with Cody that day. Please be careful out there: We still have people out sick with Covid and the flu. Last week, we were down four people.

Hi Danae,
Yesterday while meeting with Cody, he could easily pull up the thread that shows the evolution of the logo development with the various versions. But because we don't have Basecamp, gmail only lets me pull up your last response or two. Is there a way you could email the whole thread?

I emailed Cody because he didn't understand what I was referring to when I mentioned a frustration with Basecamp. I couldn't explain to him the challenge. .
