Our Why for your why

At the heart of it, we want to help you bring people to Christ.

From our beginning, we have chosen to specifically serve the Catholic Church by means of building communication tools to help dioceses and parishes connect people with the life of the Church, spread the Word of God, and build the body of Christ.

How to get there

Know your destination, and how to use the tools at your disposal to get there. Much as pilgrims on dangerous roads or sailors on turbulent seas utilize all means at their disposal to find their way, so it is important to understand and strategically use a variety of communication tools to effectively reach people in our changing world.

The scallop shell has long been associated with pilgrims. Practically used for drinking water from streams along the way. It is also the symbol for finding one's way along the Camino de Santiago in Spain.

NAVIGATING WITH THE STARS

For ages people have referenced the night sky for navigation and tracking time. While being a tedious task it is also recognized as very reliable.
